

CONTINUOUS EMAIL DELIVERY & UNLIMITED SECURE OFFSITE ARCHIVING

Email is a vital and integral part of any organisation. As the range of email threats has increased, the market applications for email continuity, protection & secure archiving are becoming more and more complex. OryxAlign partner with Mimecast to deliver first class unified email management.

TECHNOLOGY AT A GLANCE

Mimecast simplifies the notoriously complex world of email management & removes spam, virus and malware threats before they reach your network. It ensures 100% email continuity and enforces email content policies & secure communication methods to protect sensitive data.

All inbound, outbound and internal email is stored in Mimecast's resilient and secure archive in accordance with centrally managed retention policies.

STREAMLINE YOUR EMAIL INFRASTRUCTURE

Mimecast Unified Email Management is a centrally managed cloud solution that replaces the disparate mix of software, hardware and services typically deployed to support Exchange. Mimecast delivers email security, continuity and, optionally long term archiving, as a single solution; simplifying your network, reducing administration and easing pressure on overcrowded server rooms.

REDUCE ADMINISTRATION OVERHEAD

With no on-premise equipment to maintain and a single provider to go to for support, Mimecast instantly cuts down your administration burden. Mimecast's experts keeps your email defences up to date, so you have less to worry about. With Mimecast archiving in place, rapid and accurate organization-wide searches simplify eDiscovery tasks and painful and risky email data migrations are a thing of the past.

IMPROVE END USER EXPERIENCE

During email outages, Mimecast automatically gives users an uninterrupted email service. Mimecast UEM Enterprise personal archive offers users a bottomless mailbox, easing the frustration of mailbox size restrictions in Outlook and on mobile devices. Rapid archive search and 'drag and drop' features let users easily and quickly restore deleted messages back into Outlook and user productivity is further improved by giving them mobile access to their archive.

ABOUT ORYXALIGN

OryxAlign is a thriving and vibrant managed technology services provider, with client happiness at the heart of our business. With decades of combined experience, we remove the stress and strains of IT by delivering efficient, practical and affordable managed technology services.

We work as your IT partner, not as an outsourced provider.

GREATER VISIBILITY AND CONTROL OF YOUR EMAIL

Mimecast facilitates the enforcement of organisation-wide email security and data retention policies. All policy changes are applied immediately, letting you respond quickly to evolving situations, and all policies will remain in force even during local email outages. Real-time views of your SMTP traffic give you enhanced visibility while online queue management and advanced routing features let you stay in control.

LIGHTEN THE LOAD ON MICROSOFT EXCHANGE

Mimecast becomes your email bridgehead in the cloud, stopping vast amounts of unwanted email before it reaches your Exchange server. Mimecast UEM Enterprise effectively gives users a bottomless Outlook mailbox and offers you advanced mailbox management features. This takes away the need to keep large volumes of email on Exchange, enhancing its performance and shortening back-up times.

FEATURES	BENEFIT & VALUE
<p>EMAIL SECURITY Protect your organisation from email viruses, malware, spam and data leakage with Mimecast's reliable and secure cloud-based security solution.</p>	<p>The most comprehensive cloud-based email security and compliance solution on the market, Mimecast install organization-wide email security policies, managed from a single interface that can be applied with immediate effect, enabling your business to respond rapidly to evolving threat situations</p>
<p>EMAIL ARCHIVING Allows for accessible historical email storage, using a secure cloud-based platform, without the need to back-up.</p>	<p>Dramatically reduces email archiving operating costs and effectively reallocate resources on projects that deliver efficiency and cost savings. All email stored with Mimecast is tamper proof, with strong chains of custody throughout their entire lifecycle. Mimecast email archiving supports demanding legal requirements, used as an eDiscovery and litigation power tool.</p>
<p>100% EMAIL CONTINUITY Delivers always-on, seamless email availability through automatic service failover and failback in near real-time during an email outage.</p>	<p>Mimecast Email Continuity integrates seamlessly with Outlook that your employees will just carry on using email safely and securely. Mimecast Email Continuity is the only cloud-based solution that steps in automatically to deliver email to end users during planned and unplanned outages Managed from a single administration console, and with no additional on-premise hardware required, Mimecast simplifies your network and reduces administration.</p>
<p>DATA LEAK PREVENTION Controlling the flow of sensitive information is a vital protection for intellectual property and compliance.</p>	<p>Compliance requirements necessitate the use of extra layers of protection for sensitive information. In addition a key element of security best practice is the ability to prevent confidential information from entering or leaving the business through email. Mimecast recognises the importance of enhanced security, and provides a Data Leak Prevention capability to enhance Secure Email Gateway features.</p>
<p>LARGE FILE SEND Send and receive large files without being restricted by attachment limits.</p>	<p>A cloud-based large file sending service, Mimecast enables end users to remain productive, sending large files via a secure, centrally managed service that ensures compliance with enterprise policy without interrupting existing business workflow</p>
<p>FILE ARCHIVING Instant access to files from one concise place, via Outlook, Web, Smartphone, or Tablet.</p>	<p>Mimecast File Archiving provides a secure, reliable, scalable archive for all types of files. It removes the complexity of managing hardware and software associated with on-premise solutions and facilitates simple end user access to key corporate data</p>
<p>EDISCOVERY AND LITIGATION SUPPORT A unified archive means fast and effective eDiscovery and litigation hold.</p>	<p>Litigation is an increasingly common driver for email archiving solutions. Email and its content, including metadata, is considered a critical element of the legal process, frequently used in legal proceedings to indicate timing, knowledge, motivation or intent. Mimecast offers comprehensive capabilities to knowledge workers and legal departments designed to reduce the cost, complexity and time taken for effective eDiscovery and litigation hold.</p>
